**The Cpl pricing in Item 3 is provided by way of a reference example only. These prices represent the conversion of the Minimum Milk Price for milk solids (butterfat plus protein) set out in Item 3 of the Details to a Cpl price calculated on the assumption that the relevant litre of milk will comprise the Assumed Composition Levels, being 4.00% butterfat and 3.2% protein. Given that the quality (SCC & TPC) of your milk may differ from the Assumed Composition Levels, the Cpl pricing in this Item 3 is not necessarily indicative of the price you will receive for your milk or the minimum milk price under this Contract.*

Item 4 – Statement of justification for Minimum Milk Prices

DFMC and Bega are parties to the Bega Milk Supply Agreement. Pursuant to the Bega Milk Supply Agreement, milk acquired by DFMC from its farmers/members is on-sold to Bega.

The Bega Milk Supply Agreement provides for “back-to-back pricing” with Bega (i.e. the price Bega pays DFMC must be the same as the price DFMC pays its farmers/members).

Under the Bega Milk Supply Agreement, the milk price is negotiated by DFMC and Bega to reflect a competitive market farmgate milk price having regard to certain factors including, to the extent known, competitor processors milk prices in the applicable region.

Bega produces, markets and distributes some of Australia’s most iconic brands in milk, dairy beverages and yoghurt and as such are ultimately more focussed on local farmgate milk prices than international dairy commodity prices in New South Wales.

The Minimum Milk Price is the milk price for non-exclusive supply negotiated by DFMC and Bega pursuant to the Bega Milk Supply Agreement and reflects Bega’s domestic business focus.

Item 5 – Productivity Incentive

Total Kgs (Butterfat & Protein)	Rate	Cpl	Payment (Dollars)	Total Kgs (Butterfat & Protein)	Rate	Cpl	Payment (Dollars)
5,000	0.10	0.72	\$500	14,000	0.28	2.02	\$3,920
6,000	0.12	0.86	\$720	15,000	0.30	2.16	\$4,500
7,000	0.14	1.01	\$980	16,000	0.32	2.30	\$5,120
8,000	0.16	1.15	\$1,280	17,000	0.34	2.45	\$5,780
9,000	0.18	1.30	\$1,620	18,000	0.36	2.59	\$6,480
10,000	0.20	1.44	\$2,000	19,000	0.38	2.74	\$7,220
11,000	0.22	1.58	\$2,420	20,000	0.40	2.88	\$8,000
12,000	0.24	1.73	\$2,880	21,000	0.42	3.02	\$8,820
13,000	0.26	1.87	\$3,380				

The Productivity Incentive is based on kgs milk solids (butterfat plus protein) supplied per month and starts at 5,000 kg MS which is capped at \$0.40 per kg MS. The formula to calculate the Productivity Incentive is \$0.02 per kg MS per 1000 kg MS supplied during a month. The Cpl price is quoted at the Assumed Composition Levels. The Productivity Incentive is paid on a sliding scale for total milk solids within a month i.e. the more milk solids you send the higher up the payment scale is the value for all those milk solids, e.g. 8,000 kg MS is paid at a rate of 0.160 and 8,500 kg MS is paid at a rate of 0.170

Item 6 – New Milk Incentive Rate -section 3(e)

•\$0.657 per Kg butterfat and \$0.981.00 per Kg protein on the amount of butterfat and/or protein in the milk which we accept from you during the relevant month which is over and above the New Milk Baseline (New Milk Incentive).

Item 7

New Milk Baseline – New Suppliers only

Is the supplier new to DFMC? If yes, complete the baseline details below.

Baseline Calendar Month	Butterfat (Kgs)	Protein (Kgs)
July 2020		
August 2020		
September 2020		
October 2020		

November 2020		
December 2020		
January 2021		
February 2021		
March 2021		
April 2021		
May 2021		
June 2021		

Item 8 – Growth Incentive Rate – Section 3(f)

The Growth Incentive rate is \$0.21 per Kg butterfat and \$0.32 per Kg protein on the first 0 to 9.99% of the increase in either Milk Solid by the Supplier above the Growth Incentive Baseline during the Growth Incentive Period: plus \$0.85 per Kg butterfat and \$1.28 per Kg protein on any balance above 9.99% of either Milk Solid above the Growth Incentive Baseline during the Growth Incentive Period.

However, the Growth Incentive rate will be capped at a fixed rate of \$0.21 per Kg butterfat and \$0.32 Kg protein where 720,000 Kg Milk Solids or more are accepted by DFMC from the supplier during the Growth Incentive Period.

Example of application:

For example, if:

- your Growth Incentive Baseline is 60,000 Kg butterfat and 40,000 Kg protein; and
- at the end of 30 June 2022, DFMC has accepted 78,000 Kg butterfat and 52,000 Kg protein from you,

then DFMC will pay you a Growth Incentive of:

- \$0.21 per Kg butterfat on 5,994 Kg of butterfat (being, 9.99% of the butterfat baseline of 60,000 Kg) i.e. \$1,258.74; and
- \$0.32 per Kg protein on 3,996 Kg protein (being 9.99% of the protein baseline of 40,000 Kg) i.e. \$1,278.72; and
- \$0.85 per Kg butterfat on 12,006 Kg butterfat (being the balance of total growth in butterfat compared to baseline i.e. 18,000 Kg less 5,994 Kg) i.e. \$10,205.10; and
- \$1.28 per Kg protein on 8,004 Kg protein (being the balance of total growth in protein compared to baseline i.e. 40,000 Kg less 3,996 Kg) i.e. \$10,245.12,

being a total Growth Incentive of \$22,987.68.

Example 2: Using the example above, if you commenced supplying DFMC part way through the financial year, and:

- 28,000 Kg butterfat and 22,000 Kg protein was your Prior Deemed Milk Supply to your previous processor during the period commencing on 1 July 2021 and ending the day prior to the Start Date; and
- 50,000 Kg butterfat and 30,000 Kg protein was accepted from you by DFMC from the Start Date until 30 June 2022,

then, you will be paid:

- 64.10% of the \$7,348.32 (being the total incentive calculated in the above example on the growth in butterfat); and
- 57.69% of the \$6,648.10 (being the total incentive calculated in the above example on the growth in protein),

being, a total Growth Incentive of \$13,996.42.

To determine whether you will receive a Growth Incentive, at the end of the FY21/22 year, your milk supply will be assessed against both the criteria for the New Milk Incentive and the criteria for the Growth Incentive. If you would have received more money from DFMC under the New Milk Incentive, you will not also be paid a Growth Incentive. If you would have been paid more money from DFMC under the Growth Incentive, you will receive a top up payment as soon as reasonably practicable after the end of the FY21/22 year, being the difference

between what you would have been paid under the Growth Incentive less what you have been paid under the New Milk Incentive.

Item 9 – Growth Milk Incentive Baseline for new suppliers: Section 3 (f)

Is the Supplier a new supplier to DFMC? If yes, complete the baseline details agreed between the parties below:

Baseline Financial Year	Total Butterfat (Kgs)	Total Protein (Kgs)
25 June 2019 to June 30 2020		
1 July 2020 to 25 June 2021		
Growth Incentive Baseline (average previous 2 years)		

Item 10 -Supermarket Retailer Own Brand (ROB) Levy

If applicable, DFMC will pass on in full any farmer levies received by BDD from supermarket retailers that have been generated out of retail price increases on ROB fresh white milk for so long as the retailers continue these programs. On a periodic basis, BDD will calculate the total levies received from a supermarket retailer divided by the total number of litres of milk supplied by all milk suppliers to BDD and DFMC in the relevant region over the same period. You will then be paid the applicable cpl levy for the number of litres you supplied DFMC during that period of time.

Item 11 – Gate Fees

Fee	Rate
Gate Fees	\$20(first collection per day)
	\$50 (for additional collections on that day, where multiple pick-ups are agreed to by DFMC)
	\$40(per pick-up if you fail to supply the Minimum Monthly Volume Collection)

Item 12 – Quality Demerit Points

Demerit Points per Month	Cpl
0	2.0
1	1.4
2 – 4	1
5 – 9	0
10 – 14	-1
15 – 17	-4
18 – 23	-8
24 – 29	-12
30 - 60	-16
61+	No payment

Item 14 – Minimum Monthly Volume Collection

Minimum litres per Month
20,000

Item 15 – Annual Defined Volume

Your Annual Defined Volume will be used to calculate the number of shares in DFMC you must acquire pursuant to DFMC's compulsory 2011 share acquisition program.

SAMPLE

1. Milk Supply

- (a) **Term of Contract:** This Contract commences on the Commencement Date set out in **Item 1** of the Details and will end on the Expiry Date set out in **Item 2** of the Details, unless terminated earlier in accordance with the provisions of this Contract (**Term**).
- (b) **Cooling off period:** You may terminate this Contract with immediate effect at any time within the period of 14 days after the date this Contract is entered into without incurring any liability to DFMC.
- (c) **Non-Exclusive Contract:** For the avoidance of doubt, this Contract constitutes a non-exclusive agreement for you to supply your milk to DFMC during the Term. You will **not** breach this Contract if you supply any of your milk to a third party at any time prior to this Contract terminating or otherwise expiring in accordance with its terms.

2. Minimum Milk Price

- (a) **Minimum Milk Price:** Subject to the other terms of this Contract, DFMC will acquire all of your milk each Month for the Minimum Milk Price for that Month set out in **Item 3** of the Details. The Minimum Milk Prices are paid in \$ per kg butterfat and \$ per kg of protein contained in your milk supplied each Month.
- (b) **Justification for Minimum Milk Price:** The Dairy Code requires DFMC to provide you with a statement of justification for each Minimum Milk Price. DFMC has set out its justification in **Item 4** of the Details.
- (c) **Example pricing:** *Item 3 of this document sets out the Minimum Milk Prices for each Month converted to a Cpl basis. The conversion of the Minimum Milk Price to Cpl has been calculated on the assumption that the relevant litre of milk supplied will comprise 4.00% butterfat and 3.2% protein (Assumed Composition Levels). Given that the quality of your milk may differ from the Assumed Composition Levels, the pricing in Item 3 is not necessarily indicative of the price you will receive for your milk nor does it constitute the minimum milk price under this Contract.*

3. Incentives

- (a) **Productivity Incentive:** In addition to the Minimum Milk Price, you will be paid a Productivity Incentive based on the total number of milk solids in your milk that you supply to DFMC each Month during the Term that complies with the Quality Standards. The Productivity Incentive will be paid at the rates set out in **Item 5** of the Details.
- (b) **Productivity amalgamation:** If you have multiple farms, DFMC will amalgamate milk solids for the purposes of calculating the Productivity Incentive as long as farms are owned by the one entity. Quality Incentives and Quality Fees will continue to apply to individual farms. If you have multiple farms, you may elect one farm to which the Productivity Incentive will be credited.
- (c) **Quality Incentive:** If you receive a total of 4 or less Demerit Points in a Month, you will be entitled to receive a Quality Incentive payment equal to:
 - (1) the relevant rate set out in **Item 12** of the Details based on your total number of Demerit Points for that Month;
 - (2) multiplied by the total number of litres of your milk supplied to DFMC in that Month.
- (d) **Supermarket Retailer Own Brand (ROB) Levy:** If applicable, the Supermarket Retailer Own Brand (ROB) Levy will be paid to you in accordance with **Item 10** of the Details.
- (e) **New Milk Incentive (12 months)** - If you are able to increase either or both of the kg of butterfat or kg of protein contained in the milk which we accept from you in any of the twelve months (described below) compared to the kg of butterfat or kg of protein contained in the milk you supplied in the same month in the previous Financial Year (New Milk Baseline), you will be eligible for a new milk incentive at the rate of:

- \$0.65 per Kg butterfat and \$0.98 per Kg protein on the amount of butterfat and/or protein in the milk which we accept from you during the relevant month which is over and above the New Milk Baseline (**New Milk Incentive**).
- The relevant twelve months are: July 2021 through to June 2022 (inclusive).

The New Milk Baseline which will apply is set out in the Acceptance Form. If you are a new supplier to DFMC, this will be based on evidence you give us about the milk you supplied your previous processor for the New Milk Baseline period.

If you have more than one address for milk collection listed in the Acceptance Form, BDD will group all of those farms together for the purposes of calculating the New Milk Incentive.

- (f) **Growth Milk Incentive** - If you are able to increase either or both of the kg of butterfat or kg of protein contained in the milk which we accept from you from 1 July 2021 until 30 June 2022, you may be eligible for a Growth Incentive.

The Growth Incentive is calculated on any increase in either or both of the kg of butterfat and kg of protein contained in the milk which we accept from you from 1 July 2021 until 30 June 2022 over and above the average amount of the relevant milk solids contained in milk you supplied during the previous two financial years (**Growth Milk Baseline item 9**).

The Growth Milk Baseline which will apply is set out in the Acceptance Form – Item 7 and item 9. If you are a new supplier to DFMC, this will be based on evidence you give us about your supply to your previous processor for the Growth Milk Baseline period.

If you commence supplying DFMC part way through a financial year, then Growth Incentive will be calculated based on:

- your **Prior Deemed Milk Supply** as set out in the Acceptance Form; and
- the milk you supply DFMC from your Start Date up until 30 June 2022, (**Total Annual Milk**).

You will then be paid a pro-rata proportion of the Growth Incentive calculated on the proportion of the Total Annual Milk that you supplied DFMC during that period.

If you have more than one address for milk collection listed in the Acceptance Form, DFMC will group all of those farms together for the purposes of calculating the Growth Incentive.

The rates for the Growth Incentive and an example of the way in which the Growth Incentive operates are set out below:

The Growth Incentive rate is:

- \$0.21 per Kg butterfat and \$0.32 per Kg protein on the first 0 to 9.99% of the increase in either milk solid by you above the Growth Incentive Baseline from 1 July 2021 to 30 June 2022; plus
- \$0.85 per Kg butterfat and \$1.28 per Kg protein on any balance above 9.99% of either milk solid above the Growth Incentive Baseline from 1 July 2021 to 30 June 2022.

However, the Growth Incentive rate will be capped at a fixed rate of \$0.21 per Kg butterfat and \$0.32 per Kg protein where 720,000 Kg milk solids or more are accepted by DFMC from you from 1 July 2021 to 30 June 2022.

Example 1: For example, if:

- your Growth Incentive Baseline is 60,000 Kg butterfat and 40,000 Kg protein; and
- at the end of 30 June 2022, DFMC has accepted 78,000 Kg butterfat and 52,000 Kg protein from you,

then DFMC will pay you a Growth Incentive of:

- \$0.21 per Kg butterfat on 5,994 Kg of butterfat (being, 9.99% of the butterfat baseline of 60,000 Kg) i.e. \$1,258.74; and
- \$0.32 per Kg protein on 3,996 Kg protein (being 9.99% of the protein baseline of 40,000 Kg) i.e. \$1,278.72; and

- \$0.85 per Kg butterfat on 12,006 Kg butterfat (being the balance of total growth in butterfat compared to baseline i.e. 18,000 Kg less 5,994 Kg) i.e \$10,205.10; and
- \$1.28 per Kg protein on 8,004 Kg protein (being the balance of total growth in protein compared to baseline i.e. 40,000 Kg less 3,996 Kg) i.e. \$10,245.12,

being a total Growth Incentive of \$22,987.68.

Example 2: Using the example above, if you commenced supplying DFMC part way through the financial year, and:

- 28,000 Kg butterfat and 22,000 Kg protein was your Prior Deemed Milk Supply to your previous processor during the period commencing on 1 July 2021 and ending the day prior to the Start Date; and
- 50,000 Kg butterfat and 30,000 Kg protein was accepted from you by DFMC from the Start Date until 30 June 2022,

then, you will be paid:

- 64.10% of the \$7,348.32 (being the total incentive calculated in the above example on the growth in butterfat); and
- 57.69% of the \$6,648.10 (being the total incentive calculated in the above example on the growth in protein),

being, a total Growth Incentive of \$13,996.42.

To determine whether you will receive a Growth Incentive, at the end of the FY21/22 year, your milk supply will be assessed against both the criteria for the New Milk Incentive and the criteria for the Growth Incentive. If you would have received more money from DFMC under the New Milk Incentive, you will not also be paid a Growth Incentive. If you would have been paid more money from DFMC under the Growth Incentive, you will receive a top up payment as soon as reasonably practicable after the end of the FY21/22 year, being the difference between what you would have been paid under the Growth Incentive less what you have been paid under the New Milk Incentive.

4. Fees and levies

- (a) **Gate Fees:** You will be charged the Gate Fees set out in **Item 11** of the Details as a fee for the service of DFMC collecting your milk, which will be deducted from the Minimum Milk Price you receive in respect of a Month.
- (b) **Industry Levies:** DFMC may pay on your behalf to the relevant industry body or authority any levies. If this levy is voluntary, you can advise DFMC in writing to stop collecting and paying that levy. The amount of any levy due will be deducted from the payment for your milk.
- (c)

5. Price Changes

- (a) **Price increases:** DFMC may make a determination during the Term to increase the Minimum Milk Prices (**Price Increase**). If DFMC makes such a determination, it will give written notice to you of the details of the Price Increase. Due to the requirements of the Dairy Code, in order to be eligible to receive the Price Increase, you will need to agree in writing to the variation of this Contract in accordance with the Price Increase notified to you by DFMC. DFMC will provide you with instructions as to how to agree to any such variation of this Contract at the time it notifies you of the Price Increase.
- (b) **Retrospective Step Downs:** DFMC will not retrospectively reduce the Minimum Milk Prices applicable during the Term under any circumstances.
- (c) **Prospective Step Downs:** DFMC agrees that it will not unilaterally vary this Contract to prospectively step down the Minimum Milk Prices, unless:
 - (1) the variation of the Minimum Milk Price is effective only after written notice of the variation has been given in accordance with clause 5(d);

- (2) Exceptional Circumstances have occurred;
 - (3) DFMC has taken any and all such reasonable steps to prevent or limit the impact of the Exceptional Circumstances or there are no such steps that DFMC is able to take;
 - (4) due to the Exceptional Circumstances, the prospective step down is unavoidable; and
 - (5) the variation of the Minimum Milk Price is limited to the expected end of the Exceptional Circumstances.
- (d) **Notice of Step Down:** In the event that DFMC varies this Contract to apply a prospective step down in accordance with this clause 5, DFMC must, at least 30 days before the step down occurs, give you and the Australian Competition and Consumer Commission written notice of:
- (1) the step down;
 - (2) the Exceptional Circumstances;
 - (3) the reasonable steps DFMC has taken or will take to prevent or limit the impact of the Exceptional Circumstances or that there are no such steps that DFMC is able to take;
 - (4) why the step down is unavoidable; and
 - (5) the period to which the step down relates.
- (e) **Termination Right:** You will have a right to terminate this Contract within 21 days after receiving a notice of a step down under clause 5(d) with effect from the day the step down occurs. You will also have the right to rescind any such termination before the end of those 21 days.

6. Quality

- (a) **Quality Standards:** You must at all times comply with, and ensure your milk supplied to DFMC complies with, each of the Quality Standards set out in Sections 2 and 3 of DFMC's Milk Policy.
- (b) **Non-compliance:** Failure to comply with the Quality Standards may result in DFMC:
 - (1) rejecting your milk in accordance with the procedures set out in the Quality Standards; or
 - (2) notifying you in writing that collection of your milk will be suspended until DFMC is satisfied that appropriate rectification of the relevant issue has been made by you.
- (c) **Rejection of milk:** If your milk is rejected by DFMC:
 - (1) you will not be paid by DFMC for that milk;
 - (2) you may be liable to pay DFMC the total cost of the milk of other suppliers (if any) that has been contaminated in the relevant tanker at the current value of the milk, along with the freight costs and disposal costs incurred by DFMC, BDD or its contractors in accordance with the Quality Standards; and
 - (3) DFMC must as soon as practicable after the rejection of your milk, provide you with written notice of the rejection, including the reasons for the rejection and the consequences for you of the rejection (including any fees payable by you for matters arising as a result of the rejection).
- (d) **Demerit Points:** You will receive demerits points for each breach of the Quality Standards in accordance with table set out in **Annexure A** and the Appendix of DFMC's Milk Policy (**Demerit Points**). If you receive:

- (1) 4 or less Demerit Points in respect of a Month, you will receive a Quality Incentive in accordance with clause 3(c), which is an additional amount that will be paid to you on top of the Minimum Milk Prices for your milk supplied in that Month;
 - (2) 10 to 60 Demerit Points in respect of a Month, you will be charged a Quality Fee in accordance with clause 6(e), which is an amount which will be deducted from the Minimum Milk Prices that you will receive for your milk supplied in that Month; and
 - (3) 61 or more Demerit Points in respect of a Month, you will not be paid the Minimum Milk Price for your milk supplied in that Month.
- (e) **Quality Fees:** If you receive 10 to 60 Demerit Points in a Month, you will be charged a Quality Fee which will be deducted from the Minimum Milk Prices that you will receive for your milk supplied in that Month and will be equal to:
- (1) the relevant rate set out in **Item 12** of the Details based on your total number of Demerit Points for that Month;
 - (2) multiplied by the total number of litres of your milk supplied to DFMC in that Month.

7. Payment

- (a) **Payment date:** Subject to clause 7(b), you will be paid for your milk supplied to DFMC in a Month on the fifteenth day of the following Month.
- (b) **Weekends and public holidays:** If the fifteenth day of the Month is a:
 - (1) Saturday or Sunday, you will be paid on the immediately preceding Business Day; or
 - (2) public holiday or bank holiday, you will be paid on the nearest Business Day prior to the fifteenth day of the Month.
- (c) **Milk Statements:** DFMC must provide you with a Milk Statement in respect of your milk supplied to DFMC each Month during the Term. Your Milk Statement, in respect of a Month, will be available on Milkline <https://milkline.begacheese.com.au> on the evening of the fifteenth of the following Month. Your Milk Statement will specify the details set out in Annexure C.
- (d) **Paid to be paid:** Despite any other provision of this Contract, DFMC has no obligation to pay you for your milk unless and until Bega pays DFMC all amounts payable by Bega to DFMC under the Bega Milk Supply Agreement in respect of the on-supply of your milk by DFMC to Bega.

8. Collection of milk

- (a) **Frequency:** Your milk must be supplied on a consistent basis throughout the week on either a daily or skip-a-day basis as agreed by you and DFMC, except in emergencies. DFMC has no obligation to collect your milk more frequently than once per day, but may agree to do so from time to time. If, at DFMC's election, your milk is collected more frequently than you require, no Gate Fees or charges will apply for the additional collections.
- (b) **Variation:** The amount of your milk collected over any two day period must not vary by more than 20%. For example, if the combined total of your milk collected on Monday and Tuesday is 5,000 litres, the milk available for collection on Wednesday and Thursday must be between 4,000 and 5,000 litres. This does not apply to seasonal members and end of the season.
- (c) **Minimum Monthly Volume Collection:** You must meet the minimum monthly volume collection set out in **Item 14** of the Details at all times (**Minimum Monthly Volume Collection**). Further requirements regarding minimum monthly volume collection and pick-up arrangements are contained in Section 4 of DFMC's Milk Policy.

- (d) **Failure to meet Minimum Monthly Volume Collection:** If you fail to meet the Minimum Monthly Volume Collection set out in **Item 14** of the Details in respect of a Month, DFMC will inform you in writing. If you fail to meet the Minimum Monthly Volume Collection in the following Month, you will be charged a higher Gate Fee in accordance with **Item 14** of the Details until such time as you reach and maintain the Minimum Monthly Volume Collection.
- (e) **Excess milk:** Where the volume of your milk exceeds the capacity and ability of the tanker of DFMC's contractor, additional Gate Fees and charges will not be applied.
- (f) **Storage:** Your milk must be stored in accordance with all Laws and the Quality Standards. Your milk will not be collected by DFMC from non-refrigerated vessels. Furthermore, DFMC will not accept your milk if it has been segregated on the basis of composition or quality.
- (g) **Access:** You must provide safe and suitable access for tankers to collect your milk in compliance with DFMC's Milk Policy.
- (h) **Title and ownership of milk:** Ownership of your milk passes from you to DFMC when it enters the tanker of DFMC's contractor.

9. DFMC's Milk Policy

- (a) **Compliance:** In addition to the terms of this document, during the Term, the parties must comply with DFMC's Milk Policy set out in **Annexure B** which forms part of this Contract.

- (c) **Extent of reliance:** For the avoidance of doubt, a party that relies on this clause 22 may only do so to the extent that its breach of this Contract, or the circumstances which would otherwise give the other party the right to terminate this Contract, are caused by the event giving rise to the Force Majeure, and only for so long as the Force Majeure remains in effect.
