Retailer payments any applicable payments from the retailers will be passed through in full each month

Production Incentive

Based on monthly production kg milk solids (fat + protein)

rate: 2.50c/kg MS per 1000 kg MS

below 3000 kg MS = no payment

max rate = 42.0c/kg MS

example:

144,500 litres @ 3.98%F, 3.24% P

= 10,433 kg Fat+Protein

rate is $10433/1000 \times 2.50 = 26.08c/kg$

$26.08c/kg \times 10433 kg = \$2,721.19$

Chart below shows approximate c/l production incentive -v- monthly production (assumes reference composition)

New Milk & / or Growth Incentive

Paid at above rates for July-Jun for all milk produced for the month over the corresponding month last year

An additional yearly Growth Incentive may be paid when the total yearly production exceeds total production from the average of the two previous years. This is only available when the total yearly growth payment is greater than the sum of all monthly new milk payments.

		\$/kg P	\$/kg F

	350,001	400,000	10	30	60	-16.0
	400,001	And over	15	61	and over	no pmt

Incurred on 10 day periods, high SCC & TPC dropped - see policy for more details.
Other - see payment policy document for demerit points incurred for other issues.

Stop Charges	\$20 /pickup
---------------------	--------------

The CPL prices represent the conversion of the Minimum Milk Price for milk solids (butterfat plus protein) to a Cpl price calculated on the assumption that the relevant litre of milk will comprise the Assumed Composition Levels, being 4.00% butterfat and 3.2% protein. Given that the quality (SCC & TPC) of your milk may differ from the Assumed Composition Levels, the Cpl pricing is not necessarily indicative of the price you will receive for your milk or the minimum milk price under this Contract
